About Alexia King

Alexia King
Associate Broker
681.297.0904
aking@crcgroup.com

Alexia has been with CRC for three years and currently serves as an Associate Broker. She brings 10 years of experience in the insurance industry, beginning her career on the retail side before transitioning to brokerage. Her background provides a well-rounded understanding of both client and carrier perspectives.

Prior to joining CRC, Alexia was responsible for underwriting, technical support, and servicing special lines policies for agents, as well as writing auto and home coverage with State Farm. This experience strengthened her commitment to being a strong support partner for agents — an approach she continues to prioritize in the wholesale brokerage space.

At CRC, Alexia works closely with Susan Sherman and Ron Dethloff, managing portions of their books of business, processing renewals, and servicing policies across multiple lines. Their team provides expertise in General Liability, Excess, Professional Liability, Cyber, Tech E&O, Aviation, Product Liability, and more. While supporting a broad range of coverages, Alexia specializes in Cyber Liability. She continuously attends carrier meetings focused on Cyber and Crime coverage and actively participates in carrier-led courses to deepen her technical knowledge, compare policy forms, and ensure clients are matched with the most appropriate coverage solutions.

Alexia is committed to delivering tailored coverage solutions that meet each insured's unique needs while partnering with trusted, financially strong carriers.
