I hope you each had a nice weekend, and all is well.

I wanted to share some information regarding FQHCs and Community Health Centers:

<u>We have an appetite for:</u>
Property – no GL
Work Comp – if we're getting the Property
Auto – if no patient transport
Inland Marine

<u>We do not have an appetite for:</u>
GL/PL
Umbrella

For Hospitals and Medical Clinics/Offices we will look at the Property.

Hospital & medical offices are acceptable for property only coverage. Acceptable criteria include:

- 1 to 2 stories
- Max 250k square feet in a three-block radius
- Functioning sprinkler system throughout all structures
- Within 10 miles of the coast are unacceptable (does not apply to West Coast)

We must refer to our Reinsurer for approval of any:

- Medical diagnostic equipment with a single piece of equipment valued at >$500,000

Hope this information is helpful!

Please note my new email address and company website.
